Highlights

Access to all controls
The openings on this case allow convenient access to all controls and dock connector, so you can use your device while it's protected inside the case.

Slim design
This case is designed to add protection with minimal bulk, so you can easily carry your device in your bag or backpack for protection on the go.

ShockStop
ShockStop protects devices with a walled tri-form construction that dissipates shock. Unlike a solid surface that can conduct vibration, the segmented ShockShock surface pattern interrupts & stops reverberation.

Fun, exciting colors
The fun, exciting color combinations of each layer of the case let you express your personal style while protecting your device from both impact and shock.

Hard plastic exterior
The hard plastic exterior acts as an exoskeleton to provide protection against impact.

Rubberized interior layer
The rubberized interior layer provides strong protection against shock.

ArmaDuo
ArmaDuo construction protects devices by combining a hard plastic exterior with a softer, more pliable interior layer. Together, these layers offer improved protection against impact & shock.
